Chemours Chambers Works/Deepwater, NJ

Chemours responded to EPA's questions regarding GenX, and we have begun our review of the document. Within the next one to two weeks we expect to start receiving results of Chemours' sampling for GenX in nearby monitoring and residential wells starting as early as next week. NJDEP has received an Order to Show Cause initiated by the Township of Carney's Point, which is near the Deepwater facility. The Town seeks NJDEP approval of a public participation plan for the Township. Chemours has agreed to develop a public website similar to the one that was set-up for Chemours' Fayetteville, NC site; development of the website should take about a month.
